GB PRESIDENT'S MESSAGE

14th June 2023

It is my great honour to serve Morigaon College as President of the Governing Body.

With immense pleasure I welcome you all to this temple of learning that has been disseminating knowledge for more than five decades. Morigaon College was established on 1st July, 1964 and it is now one of the oldest institutions of higher education of undivided Nagaon district of Assam, presently located at Morigaon District. Since its inception in 1964 Morigaon College has been playing a leading role in spreading knowledge in the region.

The Governing Body, the dynamic faculty members and very supportive office staffs of the college are committed to impart value-based quality education to its students to accomplish its vision and mission. The college has a dynamic Principal and highly qualified faculty members in their respective fields of expertise. A good number of national and international conferences (offline and online), seminars and workshops have been organized by the college. Such events provide a variety of experiences to the students and young faculty members to inculcate skills such as leadership and team spirit which are helpful in their career building. Our faculty members have been able to publish good quality research work in National and International journals of repute. There has been always active and regular interactions held between faculty members, GB, alumni, guardians and students in the college. It is heartening to note that the NCC and NSS wings of the college are being very prominent nationally with lots of activities, achievements and services. The learning experiences in the campus pave a strong path for enhancement of overall development of our learners with wonderful Govt. support. Recently, the Hon'ble Chief Minister of Assam has taken his special initiative for adding Commerce stream in the college from this session and also granted Rs. 1.00 cr. for developing infrastructure of the science departments.

There's a lot to look forward to in this New Academic Session, 2023-24, including a big start of the NEP 2020 with 4YUG program. The college has a calendar of social events, sporting activities and opportunities to enjoy hobbies and find new interests.

We're here to support and guide you every step of the way.

My message to all of our young students is to grasp every opportunity to develop your skills, both within and outside your course. This is the start of a very great journey for all of you.

We look forward to seeing you soon. I wish you every success as you work towards realising your dreams.

With best wishes,

I am honored to welcome you to Morigaon College and extend my warmest greetings to you as the Principal of this esteemed institution. It gives me great pleasure to present to you the prospectus for the academic year 2023-24, offering you a glimpse into the rich academic, cultural, and extracurricular opportunities that await you at our college.

Morigaon College has always strived for excellence in education, and our commitment to providing holistic and well-rounded education remains unwavering. Over the years, we have nurtured countless students, helping them shape their futures and embark on successful journeys in various fields. We take immense pride in our dedicated faculty who work tirelessly to ensure that our students receive a quality education that not only equips them with knowledge but also instills in them a passion for lifelong learning.

Our college offers a wide range of undergraduate programs across diverse disciplines, enabling students to pursue their interests and chart their career paths. We emphasize a balanced approach to education, blending academic rigor with co-curricular and extracurricular activities, enabling students to develop critical thinking, problem-solving, and leadership skills.

Our state-of-the-art facilities and resources are designed to support your academic journey. From well-equipped classrooms to modern laboratories and a well-stocked library, we strive to provide a conducive learning environment that fosters intellectual growth and encourages research and innovation. We also offer various support services, including counseling, career guidance, and mentorship programs, to ensure that every student receives the necessary guidance and support to thrive academically and personally. Morigaon College is not just an academic institution; it is a vibrant community where students come together from various backgrounds and establish life-long relationships to learn and grow together.

As you peruse this prospectus, this year, we have come up with the NEP, 2020 course and structure, i.e. the Four Year Undergraduate Programme (FYUGP) keeping in conformity with the syllabus guidelines of Gauhati University. The multidisciplinary approach to curriculum, the institutionalisation of Academic Bank of Credit, the Multiple Entry-Exit Systems and other features of the NEP, 2020, have been well-incorporated in this year's graduation programme.

I invite you to join our esteemed institution and embark on an exciting educational journey at Morigaon College. Your dreams and aspirations will find wings here, and we will be there every step of the way to guide and support you in realizing your full potential.

Thank you for considering Morigaon College as your academic partner. I look forward to welcoming you into our vibrant community and witnessing your growth and success.

With warm regards,

Dr. Lila Kanta Barthakur
Principal
Morigaon College

OUR COLLEGE

Morigaon College, established on 1st July, 1964, is the oldest institution of higher education of Morigaon district of Assam. It has already completed 59 years as one of the premier institutions engaged actively in nurturing and disseminating ray of education in the region.

The college is located in the eastern part of the Morigaon Town-the headquarter of Morigaon district. It is 70 km away from Dispur, the state capital of Assam. The nearest railway station is Jagiroad (23km) and nearest airport is LGBI airport, Borjhar, Guwahati (96Km).

Since its inception, in the first two decades, the college imparted education only in Arts stream. The science stream was introduced in 1985 and set to open up a new dimension by facilitating congenial environment to pursue higher education in science and cultivating scientific temperament. In 2002 the college introduced several vocational and job-oriented courses like Computer Application, Industrial Fish and Fisheries and Functional Hindi. In 2012 Commerce Stream in degree level has been introduced with a view to fulfilling the need of higher education in Commerce for its aspirants. This fulfilled the long felt absence of an academic centre for higher education in Commerce in the whole region. In the face of the current socio-economic background

the UGC has reoriented and reshaped its policies and programme to make the Indian higher education system career - oriented with focus on quality and excellence. It is in keeping with the spirit of UGC that Morigaon College introduced certain career oriented courses like Functional English, Translation and Proficiency and Entrepreneurship in Small Scale Industries from the academic session 2004-05. It is expected that the professionally qualified graduates with solid knowledge on the core disciplines and enterprises will have better chances for recruitment in service, industry and self-employment sectors.

The college has earned the pride of introducing Postgraduate Programme in Geography in 2017 and Zoology in 2018. In 2018, the college has started another professional course on Food Processing Technology. In the U.G. level, Sociology (General Course) has been introduced in the same year. Currently, there are thirty five Add-on Courses running in the college.

Gauhati University has recognized Chemistry Laboratory of the college as highly capable of facilitating advance research works. Besides, in 2020 college has introduced Bachelor of Computer Application and Bachelor of Journalism and Mass Communication, Food Processing.

RULES AND REGULATION

Rules and Regulation of the College

College Uniform: Boys must be dressed in white shirt and black formal pant. Close fitting & low waist/ mid-rise/ low-rise pants will not be considered. Shirts/pants must be the appropriate length not too long or short. The dress code for girls is blue salwar, white kameez and blue dupatta. Short fitting dress & leggings/pants will not be considered. Salwar-kameez must be the appropriate length – not too long or short. Only maroon coloured blazer or cardigan during winter for both boys and girls is recommended. Jacket, jeans and T-shirts are not a part of the dress code. A college logo (which shall be supplied by college authority during admission period) has to be affixed by each student on shirt pocket position (for boys) and kameez on right arm position (for girls). All students must maintain the dress code of the college. No student shall be allowed to attend classes, festivals or any functions without proper uniform.

Rules concerning student conduct: Each student is required to attend allotted lectures, tutorials, and practical classes. Use of mobile phone by students is strictly prohibited in the college campus. Exhibition or introduction of any political party-emblem in the college premises is forbidden. Disciplinary action will be taken against a student resorting to such acts. Disciplinary action will also be taken against any student resorting to acts calculated to cause public nuisance, disturbance of public peace, law and order.

Any of the following acts by students shall be considered as a major breach of discipline: (a) Habitual unpunctuality, (b) Any form of immoral behaviour, (c) Use of intoxicants, drugs etc. in the college premises or in any of the attached hostels. (d) Resorting to violence of any kind.

Anti-Ragging: Ragging is strictly prohibited in the College premises as per UGC rule. Morigaon College has an Anti-ragging Committee and Anti-ragging Squad.

Library Rules: The library is kept open 9.30 a.m. to 4.00 p.m. throughout the year on all working days except on public holidays. Membership of the library is open to the students, teachers and non-teaching staff of the college. Newly admitted will have to fill up a library membership form and have to submit it along with two copies of recent passport size coloured photograph. Students can issue/ return books themselves in the 'Self Service Kiosk' automatically with the RFID library card.

General Rules and Regulations:

A student shall not be allowed to appear in the higher Secondary/Degree semester end examination as a regular candidate if she/he has not attended a minimum of 75% of the total lectures delivered in each subject. A student with attendance between 75% and 65% will be declared as Non-collegiate. Then on-collegiate students will be allowed to appear in the examination if he/she takes casual admission. Students attending less than 65% of the total lectures delivered in each subject shall be considered as dis-collegiate.

Dis-collegiate students must not be allowed to appear in examination at any cost. The dis-collegiate students will be allowed to appear in examination next year if one takes fresh admission. The calculation of attendance takes place after all the classes are closed. Failed/backed/ dropped students in any examination will be allowed to appear in the same examination after getting casual admission. Sessional examinations are conducted in the months of October (During Odd Semester) and in April (During Even Semester). For continuous evaluation of the performance of the students, the college conducts unit tests and terminal examinations.

REGULATIONS OF GAUHATI UNIVERSITY FOR TDC SEMESTER SYSTEM

Attendance of Students:

Students must **have 75%** attendance. The attendance of all courses including the Skill Enhancement courses shall be counted, and accounted for in full while determining if the student has met the minimum attendance norms of Gauhati University.

In case, a student fails to have at least 75% attendance, he/she will not be allowed to sit for End-semester examination and will be needed to repeat the concerned semester after the successful completion of the subsequent semesters for earning the deficit credits.

Any student securing less than 75% attendance due to medical reasons will have to apply form medical leave in a prescribed form (within seven days from the date of absence) along with relevant documents/certificates etc from an authorized medical practitioner. However, after accounting for medical leave granted, the minimum attendance will still have to be

75%. If it still remains below 75%, the student will not be allowed to sit in end semester examination. Such consideration will be subject to the condition that the student must have at least 60% attendance.

For absence due to participation in prescribed co-curricular activities (eg. NCC/NSS/Youth Festival/ Sports etc.), the claim for CCA leave will have to be made in prescribed form and supported by authenticated certificate(s) from concerned authorities. However, the minimum attendance after accounting for CCA leave granted will still have to be 75%.

GU REGULATION ON FYUGP

The Four-Year Undergraduate Programme (FYUGP) of Gauhati University is as per UGC's Curricular Framework, published in November 2022. The course structure of FYUGP is built on the Choice-Based Credit System (CBCS).

Duration:

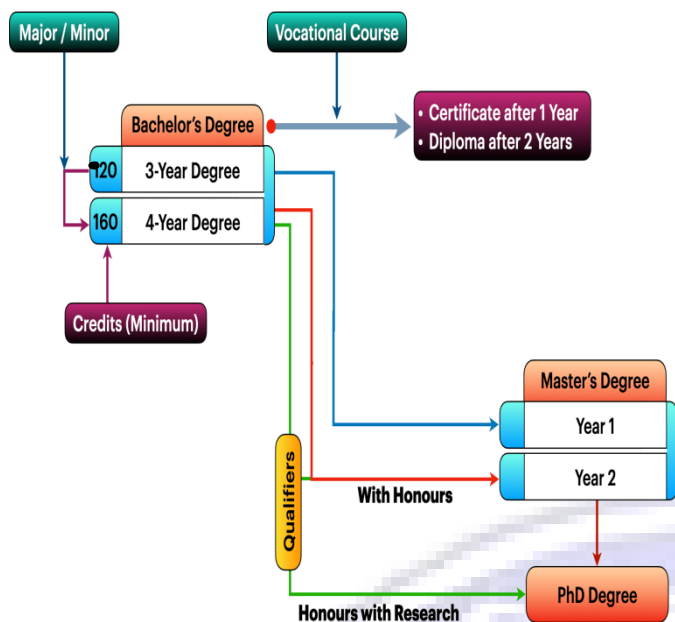

Under the NEP's FYUGP, it is a 4-year degree programme.

Exits & Entries:

In the FYUGP, one has choice to exit from the programme thrice—after one year, after two years, and after three years. If one exits the programme after one year, one gets a certificate. If one exits after two years, one gets a diploma. If one exits after three years, one gets a Bachelor's Degree, and finally if a student completes the whole 4-year, one gets a Bachelor's Degree (Honours).

Honours and Major:

Under the CBCS, we either have Bachelor's Degree (Honours) or a regular Bachelor's Degree. In FYUGP, we get a Bachelor's Degree with Major after 3 years and a degree with Major & Honours after 4 year.

Progression:

If a student exits the FYUGP after 3 years, s/he will need to take admission into the first year of a Master's programme, which is a 2-year degree programme. However, if a student fully completes an FYUGP, s/he needs to take admission into the second year of a Master's programme and needs to complete only one year to get a Master's Degree. Under CBCS, there were no such pathways.

Progression to Doctoral Studies:

Once a student takes admission into a Master's programme either after 3 years of the Bachelor's programme or after FYUGP, one will be able to take admission into a Doctoral programme leading to the Degree of PhD. However, if a student is exceptionally good, one can directly take admission into a Doctoral programme right after the FYUGP, by passing the Master's programme.

Basically, there are two parts of a course under the FYUGP– (a) **Core Courses** and (b) **Common Courses**. As the name suggests, different students study different core courses and all students study the common courses.

First Year (Semester I & II):

In the first year, one studies three different core subjects—one paper of each subject per semester. Besides, one needs to study a host of common subjects that we have designed as per UGC's Curricular Framework. Details of these courses are described in this booklet.

Second Year (Semester III & IV):

Semester III

In the third semester, one will usually continue with the same core subjects that have already been chosen in the first year and again study some common subjects. In the third semester, one will also take a step forward to study the favourite subject by **declaring** one of the core subjects as a **Major** subject and other two as **Minors**. However, the structure of the programme remains same as in first & second semesters.

Semester IV

From Semester IV onwards, one will primarily study the Major subject by taking at least four papers, some of which may be elective depending on the subject concerned.

As the programme structure in the third semester is same as the first & second semesters, one will have the option of changing the Major in fourth semester to anyone of the other two Minors as well, even if one has already declared a Major in the third semester. However this has the condition that the new Major subject of choice has vacancy.

Third Year:

In the third year, one will continue to study the Major subject to complete a full set of 15 papers in Majors.

Fourth Year:

If one intends to progress to the fourth year, s/he will be devoting the time in studying advanced courses which will be at the level of initial Master's degree papers. Besides, one will also have the opportunity of engaging into research work with the faculty members.

Besides the above, there are some more unique features of the FYUGP. They are

Free Credits:

From third to sixth semesters, one will have time for 4 free credits per semester, which one can utilise for having more Minors. They can also come handy, if one had changed a Minor subject in between.

Double Major:

If a student is ready to do some more hard work, s/he can take some extra online courses (from designated sources only) related to the Minors and can then convert one of the Minors to a second Major by the time one completes 3 / 4 years of study. This is over and above the first Major. In this case, one will have a Bachelor's Degree with Double Majors.

FYUGP degrees & course structures:

The FYUGP at GU is designed to offer two types of Bachelor's Degrees to the students at the end of the successful completion of the programme —

- (i) Bachelor's Degree in a Stream and*
- (ii) Bachelor's Degree in a Discipline.*

The word **stream** here refers to Arts, Science, Commerce, and Management. In case of a degree in a stream, the student studies a multitude

of different subjects, usually mixing different disciplines, which leads to a truly multidisciplinary degree. While in case of a degree in a discipline, the student is confined to a certain sets of disciplines. However, in both cases, the student studies equal number of courses (i.e. papers) —so there is no age of any kind to either of the two types of degrees.

For both the types of degree programmes, course-wise, the whole FYUGP is divided into two parts—

- (i) Core Courses and*
- (ii) Common Courses.*

The minimum credit allocation for a 3year programme is 84 credits in Core Courses and 36 credits in Common Courses, which comes to a total of minimum 120 credits for a 3-year programme. With the fourth year, the minimum credit requirement becomes 160. A student can however earn up to a maximum of 132 credits in a 3year programme and 176 by the fourth year.

Core courses:

The Core Courses determine the ultimate degree, diploma, or certificate a student will earn at the end of third (or fourth) year, second year, or first year, respectively. The performance in the Core Courses will also determine the grade of the student in the final examinations. Total minimum credit requirement is 84 for the Core Courses, which translates to 21 courses (i.e. papers) with a credit allocation of 4 per course (paper). A student will need to study at least three Core subjects.

The Core Courses have to be chosen among a plethora of subjects offered (see the section on Subject

Details) for both the types of degrees, respectively. In case of a Bachelor's Degree in a Stream, the components of the Core Courses are Major and/or Minors, while in case of a Bachelor's Degree in a Discipline, there are no Majors and Minors.

Major and Minors:

In case of a Bachelor's Degree in a Stream, a student either chooses a Major and Minors or just Minors from among the subjects. In any case, a student needs to complete 21 courses or 84 credits by the third year. Please see the examples that we have given in this booklet. A Major course **MUST** carry a minimum credit of 60 and a Minor course should carry a minimum credit of 12.

Usually, for majority of the students, the Core Course will consist of one Major and two Minors. But if a student desires, using the free credits (as described earlier), s/he can easily complete a third Minor as well.

Common courses:

The common courses are to be studied by all students alike and altogether they carry total credits of 36 over a 3-year period. These courses are further divided into five (5) sub-categories, as described below.

Semester III:

In the third semester, one will usually continue with the same core subjects that have already been chosen in the first year and again study some common subjects. In the third semester, one will also take a step forward to study the favourite subject by **declaring** one of the core subjects as a **Major** subject and other two as **Minors**. However, the structure of the programme remains same as in first &

second semesters.

Multi-disciplinary Courses:

These are 3-credit courses spanning over five different groups of subjects—
(i) Natural and Physical Science, (ii) Mathematics, Statistics, and Computer Applications, (iii) Library, Information, and Media Sciences, (iv) Commerce and Management, and (v) Humanities and Social Sciences. The levels of the courses are of Class XII.

Each student need to take at any three papers, each with 3 credits from the five subgroups during Semesters 1-3.

Ability Enhancement Courses (AEC):

This is an 8 credit course covering Modern Indian Languages (MIL) and English Usage (Communication).

Each student needs to complete two papers of 4 credits each one from English Usage and other from the group of MIL, especially designed for this purpose. These courses have to be taken during Semesters 1-2.

Skill Enhancement Courses (SEC):

These are various skill courses with total credit allocation of 9. In our structure, we have four skill courses out of which a student needs to study the first skill course of 3 credits in the second Semester. And then the rest three skill papers, each having 2 credits need to be studied during Semesters 4-6.

Value Added Courses (VAC):

The VAC courses will come from four sub groups (i) Understanding India, (ii) Environmental Science, (iii) Digital

and Technological Solutions, and (iv) Health & Wellness, Yoga Education, Sports, and Fitness. All together they will have a credit allocation of 6.

Each student will have to take any two papers, each of 3-credits, from any three groups during Semesters 1 & 3. Here one paper from the Environmental Science group is *compulsory* except if the student takes a core course on Environmental Science.

Internship:

All students are to carry out an Internship with a credit allocation of 4. The internship can be carried out in any semester during Semesters 3 - 6. As internships are meant to be done during semester breaks, they will not interfere with other classes.

The fourth year:

In the FYUGP, the fourth year is at par with the first year as a Master's programme, as a student can directly take admission in to the second year of a Master's programme after the successful completion of the FYUGP.

In the fourth year, a student has to complete one compulsory paper on Research Methodology (REM) in the Semester VII, which is a 4-credit theory paper. The rest of courses will consist of Advanced Core Courses and a Dissertation.

Core Course options:

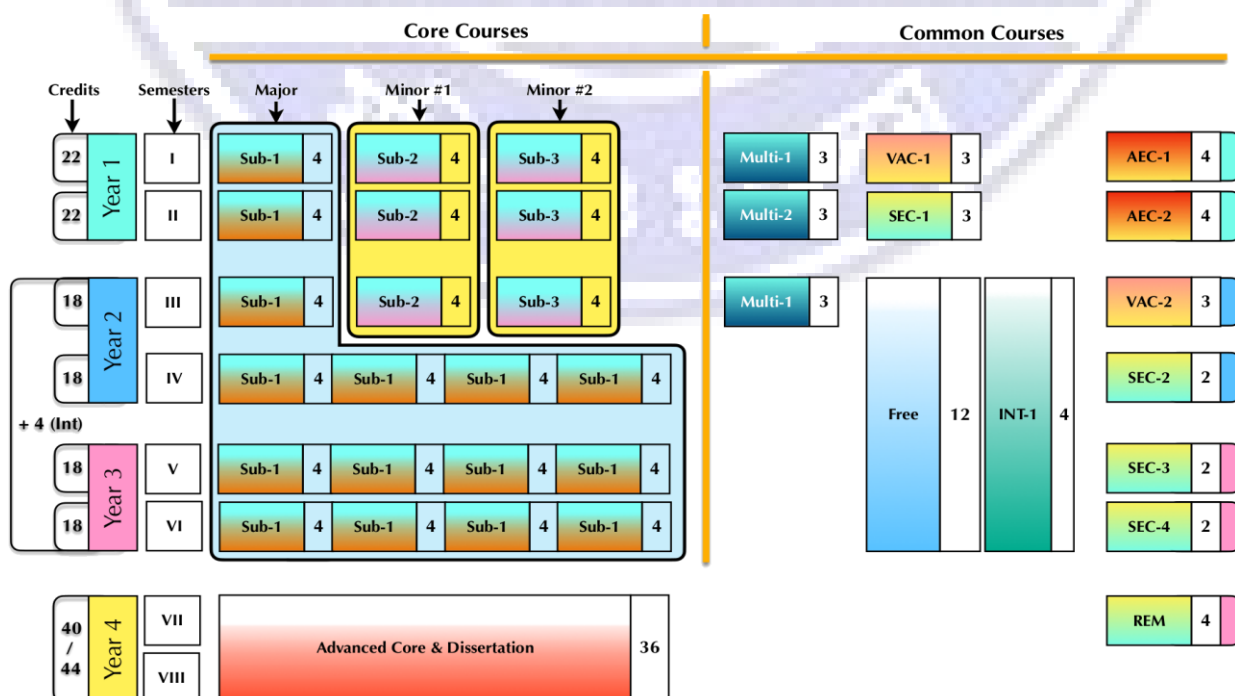

Degree in a Stream:

The following diagrams show three different options which a student can choose to complete a 3 year programme under the FYUGP.

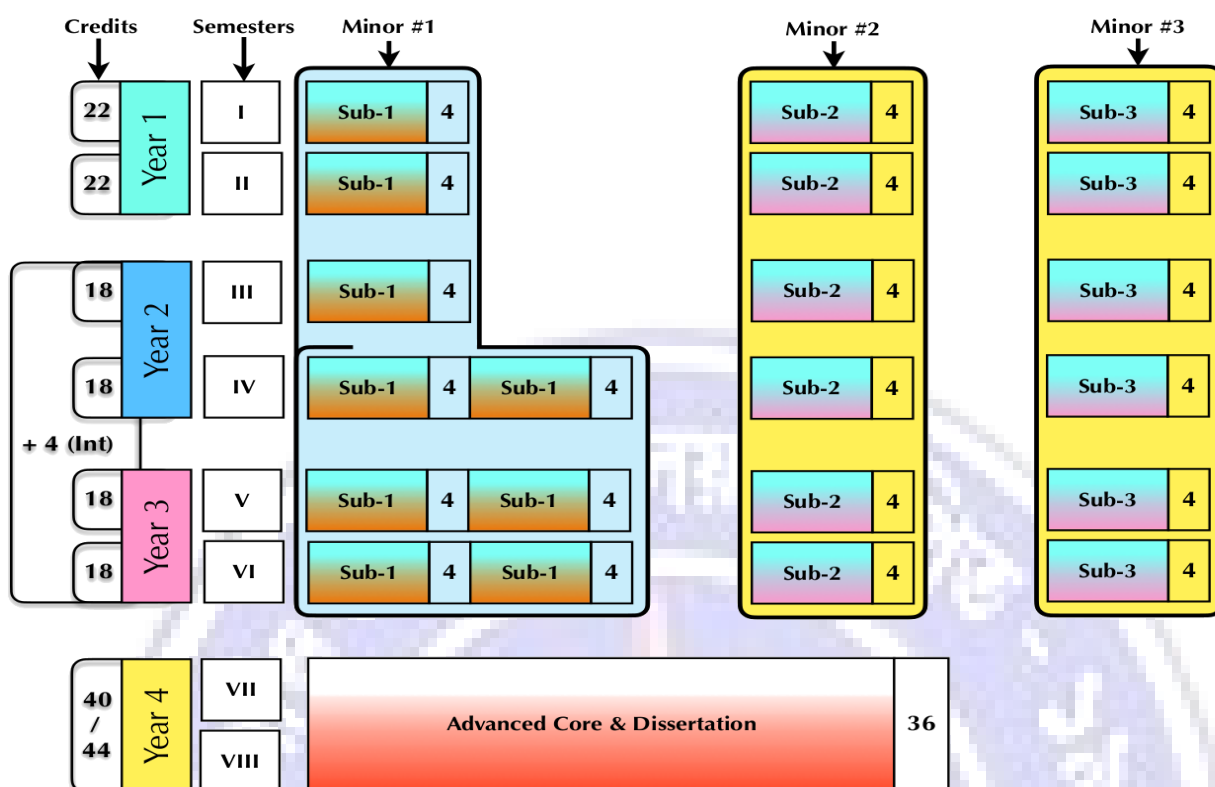

Option 1: In this option, the student chooses a Major course and two Minor courses. With this option, the student will have 12 free credits, which s/he can utilize. if s/he wants to.

Option 2: In the second option, the student has utilized these 12 free credits to complete one more Minor.

Option 3: The third option is when the student does not want any Major but wants to study all three courses equally. This option will be known as No Major (NOM) option. In this option, the student studies one paper from each of the three subjects in each semester from Sem 1 to 6.
