

Workshops organized by the Department of Zoology, Morigaon College (Autonomous) in the session 2024-25.

Topic: Applications of Distilled Water Plants in Laboratory Setups.

Resource person: Tridip Chetia, Assistant Professor, Department of Botany, Morigaon College

Date: 29th November, 2024

Venue: Seminar Hall, Department of Botany

A Workshop was organized by the Department of Zoology, Morigaon College on 29th November 2024 in the Seminar Hall. Tridip Chetia, Assistant Professor, Department of Zoology, Morigaon College, was present as the resource person and conducted a workshop on the topic "*Applications of Distilled Water Plants in Laboratory Setups*". The session started at 11:00 A.M. with an introduction to the significance of distilled water in laboratory experiments, emphasizing its purity, reliability, and necessity in biological and chemical research. Tridip Chetia explained the principles and operation of distilled water plants, highlighting their role in providing contaminant-free water for experiments, preparation of reagents, and maintenance of laboratory instruments. The workshop also included practical demonstrations, showing students how to efficiently use distilled water plants in microbiology, biochemistry, and molecular biology experiments to ensure accurate and reproducible results.

The workshop was highly informative and practical, offering students valuable insights into laboratory practices and the importance of quality control in research setups. The event was well-received by the audience, who appreciated the opportunity to gain hands-on experience under the guidance of an expert. A total of 40 students from UG and PG attended the workshop.

Topic :- Applications of Distilled Water Plants in
Laboratory setups.

Date :- 29th November, 2024

Resource person - Tridip Chetia, Assistant Professor,
Department of Botany, Manigassan College.

Venue - Seminar Hall, Department of Zoology.

Signatures -
