Report on Awareness Programme

On

"Cyber Law, Cyber Crime Prevention and Digital Safety especially for Youth"

Date of workshop: 30th August, 2025

Venue: New Conference Hall, Morigaon College (A)

Organized by: Department of Computer Applications, Morigaon College (A) in collaboration with Kosi Lok Manch, Morigaon.

Resource Person:

1. SK Sajidur Islam, APS Officer
2. Niranjan Baruah, Advocate, Morigaon
3. Maitreyee Saikia, District Coordinator, District Child Protection Unit & Kosi Lok Manch, Morigaon
4. Pankaj Kumar Nath, District Legal Services Authority, Morigaon
5. Bimal Das, District Legal Services Authority, Morigaon
6. Kuldeep Saikia, Kosi Lok Manch, Morigaon

No. of Participants: 91

Brief Overview of the Program:

A special awareness programme on "Cyber Law, Cyber Crime Prevention and Digital Safety especially for Youth" with a focus on youth and students was organized at Morigaon College (Autonomous). The programme aimed to educate students about safe online behaviour, existing legal protections, and preventive measures against cyber threats.

Before the formal inauguration of the event, a quiz competition on cyber safety and digital awareness was conducted for students to assess and enhance their understanding of the digital landscape. The quiz witnessed enthusiastic participation and helped set an engaging tone for the programme.

The session began with a warm welcome to the invited resource persons, followed by an introduction to the need for cyber awareness in today's technology-driven world. A series of insightful talks were delivered by experts from various fields, each addressing critical aspects of cyber safety, law, and social protection.

APS Officer SK Sajidur Islam delivered an impactful talk on cybercrime, drawing from his professional experience in law enforcement. He explained various forms of cybercrime such as

online fraud, identity theft, phishing, cyberbullying, and misuse of social media platforms. Through real-life examples, he highlighted how youth often fall prey to digital scams and stressed the importance of responsible internet usage, strong passwords, and timely reporting of cyber offenses.

Advocate Niranjan Baruah addressed the legal framework surrounding cyber safety. He elaborated on the laws and legal provisions that ensure the security and protection of individuals in the digital space, including sections of the IT Act, IPC, and other relevant acts. He emphasized the rights of citizens, steps to take when cybercrimes occur, and the importance of being legally informed in order to take timely action.

Maitreyee Saikia spoke on the prevention of girl child marriage, connecting the issue to online vulnerability. She explained how digital platforms can sometimes expose minors to risks and highlighted the need for vigilance by families, educators, and communities. She discussed mechanisms for reporting child-related crimes and the vital role of the child protection unit in safeguarding minors from both offline and online exploitation.

Representatives from the District Legal Services Authority, Pankaj Kumar Nath and Bimal Das, informed students about free legal services available to citizens, especially vulnerable groups. They emphasized the importance of legal literacy and encouraged students to approach the DLSA for assistance in cases involving cybercrime, harassment, or violation of digital rights. Their session also highlighted government initiatives and helplines designed to support victims of digital offenses.

Key Learning:

1. Understanding of different types of cybercrimes and how youth often become targets of online fraud, scams, and harassment.
2. Awareness of legal frameworks and security laws, including rights, reporting mechanisms, and the role of legal authorities in providing support.
3. Knowledge of digital safety practices, such as strong passwords, careful sharing of personal information, and identifying suspicious online activities.
4. Insight into child protection mechanisms, including how online platforms may expose minors to risks and how communities can safeguard children.
5. Important resources and tools for reporting and awareness:
    i. Helpline: 1930 (for cybercrime reporting)
    ii. CERT-In (Indian Computer Emergency Response Team): For reporting cyber incidents and guidance.
    iii. Cyber Clause – awareness tool for cyber safety.
    iv. Sanchar Saathi App – mobile app for cybercrime reporting and guidance.
    v. Website: cybercrime.gov.in – portal for reporting cybercrimes and accessing cyber awareness resources.

Conclusion

The awareness programme at Morigaon College successfully fulfilled its objective of educating youth about cyber safety, legal awareness, and digital responsibility. Through interactive sessions, expert insights, and student engagement activities, the event empowered young individuals to navigate the digital world safely and responsibly. It also highlighted the need for continuous awareness efforts to protect youth from the growing challenges of cyberspace.
